Organization/Agency _____	
Organization Address	Home Address
_____	_____
_____	_____
_____	_____
_____	_____
Organization Phone _____	Home Phone _____
E-mail Address _____	

Please summarize why you would like to participate in the Earth Partnership for Schools Program.

What experience do you have planning and implementing teacher professional development programs?

What history of collaboration do you have with teachers and others in your community?

What experiences have you had which you can bring to this program and the EPS Institute?

I understand that as a participant in the Earth Partnership for Schools (EPS) RESTORE Initiative I will:

1. Commit to developing an Earth Partnership for Schools Center in my home state.
2. Attend the RESTORE Leadership Institute at UW-Madison Arboretum (July 13-22, 2009)
OR Commit to attend a two-day on site training by EPS staff (please check one).
3. Participate in meetings and conference calls with colleagues and Earth Partnership for Schools staff.
4. Help plan, conduct and evaluate a one-week or equivalent Institute in 2010.
5. Support the efforts of the participating teachers as they develop a native planting with their students on school grounds.
6. Act as a resource person for EPS Center staff; help recruit schools, other regional partners, and resources as needed.
7. Act as a mentor for other natural resource agency staff who are developing schoolyard habitats (for example, give input to or help conduct training about developing schoolyard habitats, provide leadership and guidance to colleagues, etc.).
6. Participate in program evaluation as requested by Earth Partnership for Schools Program funders.
